and well-being of Latino families
and communities.

11TH ANNUAL LATINO HEALTH EQUITY CONFERENCE

June 12, 2020

DoubleTree by Hilton® of Portland

Latino Legacy: Impacts of Climate Change on Latino

Health: Familias en Acción is proud to present our 11th annual Latino Health Equity Conference, focusing on the impacts of the climate crisis on Latino health, both now and for generations to come. Our planet continues to show signs of change and distress while the population grows and our demand for natural resources increases. These impacts can be seen in the form of dramatic weather events, but also show up in our homes, our families, and our bodies. How is climate change uniquely affecting the health of the Latino community now, and how can the Latino community in turn have a unique effect on the environment? How can we live in a way that would make our children and grandchildren proud?

Latino Legacy seeks to take these issues head-on, looking within our international community for inspiration and creative solutions. Featuring keynote speakers and workshops, we will lay bare the issues at hand, and leave with empowering tools and information. We look forward to the courage and resilience that our community will bring to this topic which can be overwhelming to engage with. Our lives are our legacy, *y el momento de actuar es ahora!*

Target Audience

Health Professionals and Administrators
Community Based Organizations
City, County, and State Personnel Public
Health Practitioners
Local Health Organizations
Educators and Researchers
Students
Traditional Health Workers

Outreach & Participation

Over 4,300 individuals are reached through Familias en Acción contacts and social media.
These individuals represent over 500 organizations.
Over 400 individuals attend our conference each year.
Our event attracts national and local speakers as well as local politicians to discuss Latino Health Equity.
